

Wellbeing and Health in Frome

We asked.....

Frome Facts

- ▶ Population of 27k people
- ▶ 1 in 20 people live in one of the top 20% most deprived areas of England
- ▶ Men are expected to live to 81 and women to 85 - longer than the national average.
- ▶ Many people live with long term health conditions.

Wellbeing panel

Practitioners and individuals have worked together in a fully participative way to understand what wellbeing means in Frome and create a clear direction for organisations to work together to ensure we continue to meet the needs of local people.

Leisure activity makes a difference

Living and feeling
better starts with
a simple step –
connecting
